MEETING OF BOOSTERS CLUB

The regular meeting of the Old Rochester Boosters Club will be held at the Old Rochester Regional High School on Wednesday, December 5th at 8:00 P.M.

Any man who is interested in joining this club will be welcomed. Plans for a banquet to be held in January will be discussed along with several other important subjects. A talk will be given by a member of the New Bedford Fathers' Club, the Fairhaven Fathers' Club and the Wareham Boosters' Club. Refreshments will be served.

JIMMY STEPHENS SHOW

Stars of radio and TV who set the pace in western and country-style music and comedy will be seen in person when "WWVA" comes to Wareham for a one-night stand, under the sponsorship of the Wareham American Legion Post 220, for an 8 P.M. performance at the Wareham Town Hall December 9th.

The show will be packed with country and western style music. Crazy Elmer, known as the king of country comics, has for 22 years sparked WWVA and many other shows with his antics and zany sayings.

Jimmy Stephens, country music's newest headliner and New England's own favorite ballad singer who has appeared as guest star with such greats as Eddie Arnold, Hank Snow, Grand Ole Opry and Ernest Tubbs, will be a featured artist.

In addition, Jeannie Perron, one of the most versatile female vocalists in the country field today and known as "the sweetheart of country music"; Paul Lambert, steel guitar; Frankie Little on the drums, and the Bougers, will appear.

SLATONSTALL ADVISED AID AVAILABLE TO GUANTANAMO EVACUEES

WASHINGTON, November 30--Senator Leverett Saltonstall (R., Mass.) has been informed by the Navy Department that military dependent evacuees from the Guantanamo Bay area will be reimbursed at a rate approximately equal to the rate of compensation granted to the dependents of civilian employees who were similarily evacuated during the Cuban crisis. The funds for this will be obtained from a contingency fund of the Secretary of Defense.

Saltonstall, the ranking Republican member of the Senate Armed Services Committee, stated in Boston that he was pleased that this course of action, which will benefit many of our men stationed at the strategic Guantanamo base and their families, will be taken by the Navy.

HHHHHHIIIIIISSSSSSTTTTTT

The Marion Art Center Players will present its renowned company of superlative actors in the grand and dramatic spectacle, "DIRTY WORK at the CROSSROADS or Tempted, Tried and True". This spine chilling drama, while not recommended for the faint of heart, should thrill lovers of the drama who like their villains mean and dastardly. The success attending this great romantic drama at its initial production in 1890 has inspired the management to spare no expense in its reproduction.

KEITH VISITS FAR EAST
Continued from Page 7

Army Reserve, inspecting U.S. installations and military missions in the Pacific and Southeast Asia.

A wartime member of General Eisenhower's staff in Europe, Keith has maintained an active interest in the military, and, while busy with Congressional matters, he still attends weekly training classes and spends two weeks on active duty each year.

On his return journey, with one-day visits to Mexico City and Lima, Peru, Congressman Keith will be acting in behalf of the House Interstate and Foreign Commerce Committee, collecting information concerning legislation that will be before that committee in the coming session of Congress.

The legislation seeks Congressional approval of a new protein-rich seafood manufactured in New Bedford, fish protein concentrate - or, as it is sometimes known, "fish flour".

The Food and Drug Administration has ruled that the product would be unacceptable as human food because it is made from whole fish. Keith and others have argued that this ruling is without scientific foundation and he has waged a two-year campaign to overcome the FDA objection.

Will File Bill

He plans to refile a bill to amend the food laws to permit sale of fish protein concentrate in the United States as soon as the new Congress convenes in January. In the meantime, he said, he wants to fully document the "tremendous value this product could have in treating malnutrition throughout the world."

The State Department is assisting the effort by arranging for a series of meetings with physicians and scientists in the countries he will visit who have used New Bedford-made fish protein concentrates in the treatment of Kwashiokor and other diseases resulting from severe protein deficiency.

In Taipei, capital city of the Nationalist Chinese Island of Taiwan, Congressman Keith will discuss fish protein concentrate (FPC) with Dr. William J. Green of the Joint Commission on Rural Reconstruction, who has carried out what Keith called "important experiments" with VioBin FPC.

"Using the concentrate, donated by the New

Bedford Company, at an orphanage in Taipei, Dr. Green's experiments showed that, notwithstanding the excellent diet of this particular orphanage, FPC supplementation gave extra gains in weight to children between 24 and 36 months of age," Keith said. "It is interesting to note, too, that the youngsters preferred the fish powder to milk powder when added to the food."

In Manila, Keith will meet with Dr. Eugene Stransky and the Philippine General Hospital, a leader in the field of nutritional research with FPC. Keith will discuss the significance of FPC in the fight against malnutrition in the Far East.

Will Visit Hospital

The Congressman will spend a day in Mexico City with Dr. Federico Gomez and his staff at the Hospital Infantile, where perhaps the most spectacular results have been achieved with FPC in the treatment of severe cases of infantile malnutrition. Keith said much of proponents inspiration for carrying on the "fish flour fight" comes from Dr. Gomez's work with very young children.

Another leader in the field of nutritional studies with FPC, in a country where malnutrition is a particularly severe problem, is Dr. George G. Graham at the British-American Hospital in Lima, Peru. Keith will meet with Dr. Graham, as well as leaders of the Peruvian fishing industry, during a one-day visit to Lima.

Congressman Keith said he is also interested in learning more about a yeast fermentation method of reducing whole fish to a tasteful protein-rich liquid. Experiments with this method are being carried out by a fish meal company in Callao, the Port of Lima.

Keith's military unit will visit U. S. bases in Okinawa, Taipei, Bangkok, Manila, Guam and Kwajalein, site of the Nike-Zeus missile test facilities.
